MAYDAY PROCEDURES

1	Acknowledge the MAYDAY. Announce EMERGENCY RADIO TRAFFIC ONLY
2	Announce who is missing
3	Announce the last known location/assignment
4	Deploy the R.I.T.
5	Assign a R.I.T. Group Supervisor
6	Request the next higher alarm. DO NOT special call. Full alarms only.
7	Move Fire Operations to a separate TAC Channel. Request additional TAC for Staging.
8	Attempt to make contact with MAYDAY Firefighter/Company
9	Instruct the Firefighter to activate their PASS Alarm
10	Assign Fire Operations to another senior officer on the scene. Assure fire ops continue.
11	Assign additional company(s) to perform Back Up R.I.T. and Support Functions
12	Conduct a PAR to confirm number of missing/trapped firefighters
13	Assess Building and Fire Conditions (Collapse Potential). Risk Assessment

Additional Considerations	
Make contact with missing/trapped firefighter/company. Assess and reassure member(s)	
Assess Air Consumption and R.I.T. deployment time	
Build a Think Tank at the Command Post	
Consider additional EMS for MAYDAY Firefighters and RIT Members
