FROM THE DIRECTOR'S DESK...

When the Frost is on the Punkin

By James Whitcomb Riley

When the frost is on the punkin and the fodder's in the shock,
And you hear the kyouck and gobble of the struttin' turkey-cock,
And the clackin' of the guineys, and the cluckin' of the hens,
And the rooster's hallylooyer as he tiptoes on the fence;
O, it's then's the times a feller is a-feelin' at his best,
With the risin' sun to greet him from a night of peaceful rest,
As he leaves the house, bareheaded, and goes out to feed the stock,
When the frost is on the punkin and the fodder's in the shock.

Another fall season is (nearly) upon us, and we have some great projects and programs happening in our Department! Here's a quick summary..

- The Ashwaubomay River Trail bridge and trailhead officially opened this summer. If you haven't had the chance to check it out, you're missing out!
 - The next phase of the Ashwaubomay River Trail (around the exterior of the park) will be re-bid this winter and is now being looked at as a 2025 project. The 1st round of bids came in higher than anticipated. We'll be back at it next year!
 - We are continuing to work on final planning and design for a new mini-park on Element Way. Playground equipment has already been ordered, and the electrical design is almost complete.
 - We are continuing to work with the DNR, & US Fish & Wildlife on a grant opportunity at Ashwaubomay Park and Dutchman's Creek. Proposed amenities include improved fish and wildlife habitat, as well as improved viewing areas of the Fox River. We are hoping to start work on that project in 2025.
 - The Ashwaubenon Sports Complex is expected to see construction activity starting this fall/winter. The Cornerstone Ice Center will be adding a large 4th sheet of ice, continuing to make it one of the best skating / ice venues in the Midwest.
 - **Older Adults**...we continue to offer one of the larger varieties of older adult programming in the area! Thanks to multiple partnerships and our community center rooms, things are busy year-round. Check out the fall/winter offerings starting on page 9 of this brochure!
 - Don't forget about our final **FOOD TRUCK RALLY** of the year on **Thursday, September 12th** at Ashwaubomay Park. "That 90's BAND" will have great tunes, and our beverage tent will be offering several great "Oktoberfest" offerings to quench your thirst. Rally begins at 4:30....band plays from 5p – 8p!
 - There's still time to fill our a "CORP" survey thru mid-September! Ideas garnered from this survey help shape our 5-10 year capital improvement plan, of what you would like to see in our parks. You can pick up a survey in our office, or it is also available on-line on the Park& Recreation page.
- Fall is always special as the leaves start to turn and things cool down. We hope you've had a great year, and we thank you for all of your support of our programming and facilities.
- Ideas are always welcome, as is any discussion if you have a talent or program thoughts you'd like to share. Just contact our office! **From our "park & rec" family to yours....have a happy fall and winter season!**

A School Census form is online at www.ashwaubenon.k12.wi.us/publications or in the district calendar mailed to Ashwaubenon residents in August. The district would also like to be made aware of children with potential problems in the areas of learning, behavior, physical/developmental disabilities and speech/language. VOLUNTEER OPPORTUNITIES

VOLUNTEERING IN THE SCHOOLS

The Ashwaubenon School District invites all citizens to consider volunteering in the schools. There are a variety of volunteer opportunities at Cormier, Valley View, Pioneer, Parkview and the High School.

Volunteers can serve as classroom helpers, assisting teachers with reading activities, math facts, spelling review and serve as test and computer supervisors. In addition, the district is looking for citizens willing to periodically read to classes and to help with special projects. Serving as a mentor or guest speaker and sharing information about careers, travel, hobbies and life experiences are still another way in which citizens can be utilized.

Volunteer opportunities are available for once a week, monthly, or on an "as needed" basis. Commitments are generally for an hour or two in a variety of time slots. Volunteer activities are flexible to accommodate citizens who travel or go south for the winter.

Assignments will begin in September. A complete list of volunteer opportunities will be listed and continually updated on the school district website at www.ashwaubenonk12.wi.org/volunteeringcln. Anyone interested should contact, Coordinator of Volunteers, Kathy O'Brien at (920) 360-4033 or kobrien@ashwaubenonk12.org or call the school district office at 492-2900.

Cognitive Stimulation - Try Something New

Tuesday, October 15th 2024 10-11:15am

By changing the way you use your brain every day, you can literally rewire it — and improve your brain function in the process. We're not just talking about playing Wordle or crossword puzzles! Seek out new, unusual or exciting experiences. Working through challenges and strong emotions, and even just interacting with others, can make our brains healthier. Consider it nature's way to improve your brain health.

Exercise & the Benefits to Your Brain

Tuesday, November 5th 2024 10am-11:15am

Exercise or movement has amazing benefits for our overall health. Exercise increases energy, supports better sleep habits, boosts motivation/immune system, and helps youth handle physical and emotional challenges. Specific chemicals, such as BDNF (Brain-Derived Neurotrophic Factor) are released to promote neuroplasticity. Exercise can be as simple as playing, dancing, and being physically active.

Food is Medicine-Optimize Your Brain Health

Tuesday, December 3rd 2024 10am-11:15am

Our brain's constant supply of fuel comes from the foods we eat. Emerging research from the fields of neuroscience and nutrition shows that by changing what you eat, you can improve your mental and emotional well-being. You can stabilize your moods. You can improve your focus. You can even make your brain grow. Join us to learn how food affects the structure and function of your brain.

Sleeping Through the Ages

Tuesday, January 7th 2025 10am-11:15am

The Importance of Sleep on Brain Health—Sleep is an important part of your daily routine—in fact you spend about one-third of your life doing it! Quality sleep — and getting enough of it at the right times -- is as essential to survival as food and water. Without sleep you can't form or maintain the pathways in your brain that let you learn, create new memories, concentrate and respond quickly. Sleep also plays a key housekeeping role that removes toxins in your brain that build up while you are awake. This presentation will highlight the importance of restorative sleep and how to set up a sleep routine to gain maximum sleep benefits - at all ages!

Technology Use & Brain Wellness

Tuesday, February 4th 2025 10am-11:15am

Technology use can actually cause structural changes in the brain. Pings, alerts, rings, and notifications can shift our focus in a way that can lead to long lasting difficulties with paying attention. Difficulties paying attention can lead to poorer performance on academic, personal, and professional tasks. Lets embrace neuroplasticity, be mindful and balance our technology use.

Your Mission: Head to the Parks on the list and search for the missing elves.

Remember, elves love to hide and can be tricky to find!

1. Take a **sELF**ie with him and send the picture with your name and the park to mescoto@ashwaubenon.gov or text it to (920) 606-6357. Your picture may be used on our facebook page!
2. Return the elf to the Ashwaubenon Community Center (900 Anderson Dr.)

Monday-Thursday between 7:30-4:30 p.m. and Friday 7:30-11:00 a.m. so we can send him back to Santa before Christmas!

THINGS YOU SHOULD KNOW

CHANGING ROOM POLICY: Children 5 and older are asked to use appropriate changing rooms. We have also have 3 family changing rooms available in the warm water pool.

PARENT WATCH POLICY: Parents are welcome to watch, but with your child's interest in mind, we ask that you keep interaction with your child to a minimum. Our instructors have found that the quality of instruction has often been affected by parents and/or sibling distraction, interruptions and various other concerns during class time. We also feel it is most beneficial for children to have recreational time with their peers. Our instructors always welcome the opportunity to discuss participant's progress with parents. Please contact your instructor before or after class with any special concerns.

REFUND POLICY: If a participant cancels a registration, \$5 will be charged for processing with the balance of the activity fee being refunded. Cancellations may occur up to two days before an activity

unless there is a registration deadline. NO REFUNDS will be given after an activity has started

POOL TEMPERATURE: Competitive pool is kept at 81 degrees F and the warm water pool is kept at 89 degrees F.

LOCKER FACILITIES: The pool offers storage for your belongings while using the pool. There are lockers available in each locker room in that may be locked with a personal lock.

GOGGLES: For levels 1-3 we do not recommend goggles because children need to learn to be comfortable in the water without any aids. However, with the upper level classes, goggles are recommended as students are expected to spend significant amount of time doing a variety of skills with their faces in the water. Goggles will help to reduce eye irritation.

Please note: Mask type goggles with the nose piece attached are strictly prohibited.

ADOPT A PARK

The Village of Ashwaubenon would also like to show our gratitude and appreciation for the 2024 Adopt A Park volunteer's role in keeping our park facilities looking their best. Below are the groups, individuals or families that deserve a word of thanks for keeping Ashwaubenon's parks clean.

REPORTS OF JAPANESE BEETLE ON THE RISE

Both adult and the grub stage of Japanese beetles cause serious damage to many landscape plants (more than 320 species) and turf grasses. The adult beetles skeletonize the leaves by chewing between the veins of the leaf tissues, devour the flowers (roses) and fruits (raspberries), and ultimately weaken the plant. Roses, birch, linden, grapes, raspberries, Norway maples, beans, apples, plum, crabapples, elms, beech, asparagus and rhubarb are some of its favorite delicacies.

Adult Japanese beetle

Huge swarms of these beetles can emerge in Wisconsin, with peak activity for six to eight weeks. Adult beetles are active during the daytime and can fly an average of 1 to 2 miles. The female beetle lays eggs on the ground, which hatch in about two weeks into white grubs that damage turf grass roots. An adult Japanese beetle is one-half inch long with a shiny metallic green body, coppery brown wings and a small tuft of white hairs surrounding its sides and posterior.

Control options for adult Japanese beetles and their grubs vary depending on the landscape plants. No treatment is needed for mature trees and shrubs because they have more tolerance to the feeding damage caused by the adults and will leaf out again the next year.

Skeletonizing damage from adults

MANAGEMENT OPTIONS

1. Small landscape plants such as roses, vegetable crops, strawberries and raspberries can be protected using floating row cover (white polyester spun bonded fabric) from afternoon until late evening hours. This fabric can be draped over the plant and pinned to the ground.
2. Hand-picking and drowning the beetles in soapy water is an option if their population is low.
3. For larger populations, standard contact insecticides can be used. Acelepryn (active ingredient chlorantraniliprole) is relatively new in the market and is known to provide good control on Japanese beetles; it is less toxic to bees compared to standard insecticides.
4. On fruits and vegetables, standard organic products such as neem oil and spinosad can be sprayed after the blooming period. The application should be repeated once every five to 10 days until mid-August.
5. **Japanese beetle traps should NOT be used for control, as they will attract thousands of beetles to a garden and can lead to more damage.**
6. Turf should not be irrigated during the beetle's active season to help prevent the insect from laying eggs there.
7. A preventive grub insecticide (with an active ingredient containing imidacloprid, halofenzide, clothianidin or thiamethoxam) can be scheduled for application to lawns before the end of July to prevent eggs from hatching.
8. By mid-August, a curative insecticide (carbaryl, clothianidin or trichlorfon) can be used to control young grubs in a lawn. Flowering weeds should be mowed before application and the lawn should be lightly watered afterward.

EMERALD ASH BORER

DON'T FORGET TO PROTECT YOUR ASH...

With the discovery of EAB in Ashwaubenon, the Village of Ashwaubenon encourages residents to chemically treat ash trees to prevent being killed by EAB. Residents are being encouraged to treat street trees on a preventative basis. A number of effective options are available, with many able to be done by homeowners while others require professional applicators. Below is a link to a great publication with the latest, research based information about treating for EAB.

www.emeraldashborer.wi.gov/articleassets/InsecticideOptionsForProtectingTreesFromEAB.pdf

Please remember to complete a Village of Ashwaubenon "Tree Work – Permit Application" before treating any street trees. Several reasons for this are:

- Ensuring trained, licensed contractors are complying with WI State laws and regulations and that RUP (Restricted Use Pesticides) are only be applied by professionals
- Record treatments in our inventory to guide future management decisions
- To minimize applications by unscrupulous contractors that may harm Ashwaubenon's urban forest

PRUNE OAK TREES NOW TO PREVENT SPREAD OF OAK WILT

The Village of Ashwaubenon encourages residents to schedule their oak trees for pruning this coming fall or winter. Village ordinance requires that oaks be pruned from July 15 to April 1 to minimize the spread of Oak Wilt (*Ceratocystis fagacearum*). Most oak wilt moves from diseased trees to healthy trees through roots that have become interconnected (root grafts). Oak wilt can also spread above ground by sap-feeding beetles. The fungus produces a sweet odor that attracts sap-feeding beetles who then feed on sap from fresh wounds, carrying the fungus on them and thus infecting healthy trees.

FALL IS TREE PLANTING TIME!

The Neighborhood Street Tree Planting Program will once again be offered in the fall of 2024. The planting program is a cost sharing partnership between the Village and its residents to promote the benefits of tree-lined streets. The resident pays for the tree while planting, maintenance and replacements will be the Village's responsibility.

A selection of suitable trees will be sent with an order form in early fall and planting will be done in late October or early November.

Interested residents are asked to call the Village Forester before September 15, 2024 to be included in the program.

In 2023, the Village of Ashwaubenon met the requirements to be a Tree City USA for the 31st straight year. Tree City USA is a nationally recognized program sponsored

by the National Arbor Day Foundation in cooperation with the National Association of State Foresters, USDA Forest Service, US Conference of Mayors and National League of Cities. The Tree City USA Program is designed to recognize those communities that implement a management program to effectively manage their public trees.

ASH STREET TREE REMOVAL PROJECT

Foley's Tree Service performed contracted tree removal services for the Village of Ashwaubenon. Utilizing specialized equipment, crews removed 375 large ash street trees in 10 days!!!

A specialized telehandler being used to quickly move material into a large chipper.

Large diameter logs waiting to be transported to a holding yard.

A crew member cuts a large diameter log into manageable sized pieces.

Large-Scale Ash Tree Removal

In March of 2020, the Village Board approved funding for a 5-year plan to manage Emerald Ash Borer (EAB) on public properties in Ashwaubenon. The plan outlines a comprehensive approach to manage the adverse impacts of EAB in our community on public right of ways, parklands, and other Village owned properties. A major component of this plan is to remove approximately 1056 inventoried ash trees in our neighborhoods and parks. Private contractors will be utilized for this work and after removing the trees they will also provide stump grinding and site restoration. Replacements trees will be offered, if appropriate for the site, the following year at no cost to residents choosing to have a new tree planted. Below is the current schedule for ash removals in 2024.

Project Areas for 2024:

LEAF PICK-UP 2024:

Leaf pick-up will start approximately October 7th and continue until the first snow fall. The leaf trucks start at the north end of the Village and work south. This route is continued throughout the leaf season. Some areas of the Village do take more time to complete and we greatly appreciate your patience during this season. **Check out our leaf pick up tracking app at ashwaubenon.gov/leaves.**

SPRING CLEAN UP 2025:

The Village of Ashwaubenon does have a spring clean up from mid-April through mid May where residents can put grass out to the curb for pickup. Another option for yard and debris is that it may be brought to the Village yard waste drop-off site. This facility is located off of Cormier Road, between Holmgren Way and Ashland Avenue on Collaer Court.

COMPOST AND WOODCHIPS

Compost and woodchips are available for your landscaping needs. Piles of each item are located at the yard waste site on Collaer Court.

MONTHLY LARGE RUBBISH PICKUP:

Cut/split fire wood is available for \$70.00 a face cord at the Village Garage. (8'x4'x18") Must be picked up between 7:00 am - 2:00 pm, Monday - Thursday. Call for availability.

PROPER MAILBOX HEIGHT

During the winter season, unfortunately, several mailboxes are damaged during the snow removal process. This diagram shows the correct installation height to allow for the clearance of the snow plows.

Mailboxes not properly installed are at risk of damage at owner's expense/ replacement.

- The door of the mailbox should be flush with the back of the curb.
- 38" from the bottom of the mailbox to the top of the curb or minimum height of 44" from roadway.

A FEW WINTER REMINDERS

- It takes our crews 8-10 hours to plow the entire Village.
- The snow at the end of driveways happens in the normal process of snow removal.
- By Village ordinance, the Village crews will maintain the sidewalks in the school zones within 24 hours of a snowfall. All commercial sidewalks are to be cleaned of snow by the property owner within 24 hours of a snowfall.

MAPS & APPS

The GIS Department creates various GIS apps to view info such as property lines, air photos, garbage/recycle pickup, zoning, floodplains and more! They also publish many static maps that may be downloaded as PDF's. These maps include parks, construction, street dept. routes, utility maintenance & etc.

Visit Ashwaubenon.gov and, at the top of the page, click on 'Maps & Apps' to see what's available.

NEW APPS - There are several new GIS Apps that were recently added; including garbage/recycle routes, capital improvements, school district locator, & winter sidewalk maintenance. We are working to get more out soon.

Let us know what kind of app would be useful for YOU!

WITH THE SEASONS, DIFFERENT ORDINANCES ARE AFFECTED

Please keep in mind the following ordinance during the winter months:

19-3-190 Deposit of snow or ice on street:

No person shall remove any snow or ice from his premises, residence, parking lot, parking area, service station or business property onto any public right-of-way or property. Snow removed from public sidewalks shall not be stored in any manner which will obstruct or limit a vehicular or pedestrian vision, movement or access.

In summary, we ask that property owners not clear out their driveway and push the snow into the street.

LANDLORD AND TENANTS

The Village of Ashwaubenon has adopted NFPA 14.4.1 general, means of egress shall be continuously maintained free of all obstruction or impediments to full instant use in case of fire or other emergency.

If there is a ground level patio door and/or entrance door, there must be access to the outside, and a shoveled walkway.

Also, 5-4-607 Driveways and sidewalks: All sidewalks, steps, porches, driveways and parking spaces shall be maintained in good repair and in such condition as not to pose a hazard to public health and safety.

Please have a fun and safe winter season and if at any time you have question or concerns, please feel free to call us at 492-2309.

NO OVER NIGHT PARKING

By Village Ordinance 7-4-103 there is no overnight parking on any streets from November 1st through March 31st. Due to the size of the plow trucks it is very hazardous to try to maneuver around parked vehicles. Please be cautious during the winter months and be observant to the weather conditions to ensure that your vehicle is not parked on the roadway during these months.

LEAF COLLECTION

Fall leaves provide beautiful color on trees, but in local waters, they contribute to algae blooms—not pretty!

Options to deal with leaves so they don't impair the health of waterways include:

1. **Mulching** - you can mow over leaves & leave them on the land
2. **Composting** - mix leaves with other lawn trimmings to create a rich soil for landscaping
3. **Raking & Collecting** - be sure to follow community collection policies and cover leaves with a tarp between pick-up times
